

# Urban Mobility and Smart Ageing Conference

22-24 April 2021

Virtual

During these challenging COVID-19 times, two major issues are going to be strongly affected by the “new normal”, which will define the modern society: **MOBILITY** and **AGEING**.

We are proud to announce that these topics now will interact in a new and innovative format. The **Urban Mobility and Smart Ageing Conference** (UMSA 2021) will take place between April 22-24, 2021 – as a global virtual event discussing the most contemporary research and development. It will bring together more than **500 leading experts and scientists**: TOP CEOs, decision makers, researchers and skilled professionals – all stakeholders from different but complementary areas.

**Find out the newest trends, international opportunities and get know-how within the field. Take benefit of global experience and get access to target markets and new partnerships.**

A rare occasion to debate **mobility and smart ageing** issues in the right context, at the **right place**. We look forward to welcoming you online!

## WHAT IS UMSA ABOUT

It is an independent, multinational networking conference, where **urban mobility** and all related **ageing issues** are in the spotlight. It will also open the door to the International Exhibition and Startup Symposium for latest know-how and technological solutions. Cutting-edge innovations, interdisciplinary research, scientific progress, business and governmental strategies will find its embedment in UMSA.

Main conference panels:

<b>Panel #1</b> Active and Shared Mobility Solutions for Age-friendly Cities	<b>Panel #2</b> Technology-based Healthy Ageing in Urban Environment	<b>Panel #3</b> Future Micromobility, Improved Accessibility and Autonomous Transportation	
	<b>Panel #4</b> Innovation in Safe and Age-friendly Communities	<b>Panel #5</b> Urban “new normal” and senior citizens beyond Covid-19	<b>Age-friendly Cities Panels</b> Case studies & experience exchange
